## EXPERIENCE

### UI/UX DESIGN INTERN

Exairon | Istanbul, Turkey

July 2024

- Collaborated with 9 designers and developers to redesign Exairon's operator portal to allow users to navigate the site with ease and improve accessibility along with readability in a fast-paced environment
- Revamped the problematic elements of the most frequently visited pages of Exairon's operator portal using Figma with input from the other designers
- Upgraded the old chatroom used by operators and updated it to suit the modern elements of the website using Figma, creating a cleaner look and improving the website cohesion
- Remodeled the old and busy-looking Kanban Board to create a more professional look for the page and organized the board to make it more user-friendly
- Worked closely with the development team members to ensure design alignment with existing project frameworks and goals

### FRONT END DEVELOPER

Philly Codefest | Philadelphia, PA

April 2024

- Partnered with a team of six to create an accessibility-focused application that helps impaired or disabled individuals find accessible places and activities
- Created wireframes for the welcome page, about us page, and a survey page designed to gather first-time user preferences and needs using Balsamiq
- Developed the survey page's interface using HTML, CSS, and JavaScript, ensuring a user-friendly experience for first-time users

### HIGH SCHOOL INTERNSHIP

Cenik Architecture Office | Karabuk, Turkey

July 2022 - August 2022

- Organized and sorted financial documents in the office with precision
- Assisted the owner with scheduling and setting up virtual meetings with employees and clients
- Troubleshoot minor technological issues the other interns were having
